

## Communication

|                      |                                       |
|----------------------|---------------------------------------|
| <b>Date</b>          | 2 July 2026                           |
| <b>Team ID</b>       | xxxxxx                                |
| <b>Project Name</b>  | A Comprehensive Measure of Well-Being |
| <b>Maximum Marks</b> | 1 Mark                                |

### Communication Plan:

Effective communication played an important role in the successful development of the **Human Development Index (HDI) Prediction Using Machine Learning** project. Team members coordinated regularly to discuss project progress, resolve issues related to model development and Flask integration, review testing results, and prepare the final demonstration.

| S.No | Communication Type     | Frequency | Channel / Tool               | Participants         | Purpose                                                                     |
|------|------------------------|-----------|------------------------------|----------------------|-----------------------------------------------------------------------------|
| 1    | Team Standup           | Daily     | Google Meet / WhatsApp       | All Team Members     | Discuss daily tasks, project status, and assign responsibilities.           |
| 2    | Progress Update        | Weekly    | Google Meet                  | Team Members & Guide | Review project progress and receive suggestions for improvement.            |
| 3    | Issue / Bug Discussion | As Needed | WhatsApp/VS Code             | Development Team     | Resolve coding errors, Flask integration issues, and model prediction bugs. |
| 4    | Stakeholder Review     | Bi-Weekly | Google Meet                  | Project Guide & Team | Demonstrate completed modules and collect feedback.                         |
| 5    | Final Demo Rehearsal   | Once      | Class Room / Google Meet     | Entire Team          | Practice project presentation and verify application workflow.              |
| 6    | Documentation Review   | Once      | Microsoft Word / Google Docs | Team members         | Verify project report, documentation, and presentation before submission.   |

### Communication Challenges & Resolutions:

| S.No | Challenge Faced                                                         | Resolution / Action Taken                                                                                                        |
|------|-------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| 1    | Difficulty integrating the trained ML model with the Flask application. | Verified the model.pkl file, corrected file paths, and successfully loaded the model using Pickle.                               |
| 2    | Incorrect prediction results due to invalid user inputs.                | Added proper input validation, converted inputs to float values, and tested with multiple datasets.                              |
| 3    | Coordination among team members during development and testing.         | Scheduled regular meetings, assigned individual tasks, and maintained continuous communication through WhatsApp and Google Meet. |
